

## Environmental Management Policy Statement

Real Estate Financial Solutions Ltd is committed to ensuring that its impact on the environment and non renewable resources is minimised. The company's operational activities will be regularly audited to ensure that opportunities for appropriate green initiatives are not over looked. The company will strive to continually review its procedures and improve the environmental management system.

The company commits to:

- Complying with all laws and regulations relating to the environment and exceeding their minimum requirements where possible;
- Working towards a sustainable future where possible and encouraging and fostering awareness of environmental issues amongst our people and clients;
- Ensuring all paper used is from 100% recycled and sustainable sources;
- Ensuring all waste paper is recycled;
- Ensuring all printer cartridges are recycled;
- Considering the need for printed documents before printing; and
- Considering the need for car journeys where alternative forms of transport exist.
